I signed the papers detailing
the requested people to "Small & Lami" for
18 months.

I'm not too happy about doing
that because they are out of luck and
it hurts the people we took them from.
I think 18 months was too long and if
people want the project they should give
some resources.

So - I don't know our milestones but
I would like to see your establishment
we had are we trying to do? - what is our
* time table? WAT 1 July 80 I want to
review in detail where we are - where we

are going and reaffirm the continued need for the people we detailed to the project.

who is going to do this?
Didn't Gale Committee do this.

→ I want a formal review of the program with conclusions and recommendations for future involvement.

We are paying a good price in terms of people and I want direction to it.

Gen. F. Lyman
